Enclosure 1
Letter, McDaniel to Snyder
Dated: October 26, 2023

Y-12 NATIONAL SECURITY COMPLEX
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
EXCEEDANCES
SEPTEMBER 2023

A. Noncompliances with Permit Effluent Limitations and Requirements

On September 12, the temperature at Outfall 200 measured 30.6 degrees Celsius which is above the limit of 30.5.

B. Other Events and Observations

The ammonia as nitrogen result for Outfall 200 for the sample taken on September 12 was 1.24 mg/L which exceeds the monthly average limit of 1.01 mg/L. However, this limit is under appeal.
