Re: Project Iron Giant SWPPP July 2022 Summary

During the month of July, we had 6 days with precipitation totaling 3.5" according to the rain data collected by Hillwood on site. The dates of the rain events were 7/17, 7/18, 7/28, 7/29, 7/30, & 7/31.

The month of July had no major issues. After a heavy rain storm evidence of track out was observed at the main construction entrance. After it was pointed out it was cleaned up promptly. New silt fence was added around SW-1 on July 18th to help protect it from new fill that was placed near the road. The current disturbed acreage for Outfall 1 is 31.64 acres, and Outfall 2 is 16.78 acres.

I certify under penalty of law that this document and all attachments were prepared by me, or under my direction or supervision. The submitted information is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment. As specified in Tennessee Code Annotated Section 39-16-702(a)(4), this declaration is made under penalty of perjury.
