Subject: [EXTERNAL] Rodeway Inn (TN0023230) - NPDES Permit Modification Request

***** This is an EXTERNAL email. Please exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email - STS-Security. *****

Morning Oscar,

Per our April 25th, 2024, telephone conversation, I have attached a letter to place the pending NPDES permit modification of the above referenced facility in TDEC's Quique. Hopefully, this attached letter is adequate for this purpose. If you need additional information within the letter, just let me know and I will revise, as necessary.

The revised plans and Engineering reports were uploaded through TDEC's Plans Review Portal this past Monday, May 6, 2024.

Thanking you in advance,

James

Re: Rodeway Inn (TN0023230)
Preliminary Permit Modification Request

Oscar,

In context of our April 25th, 2024, telephone conversation I am formalizing what we discussed concerning the above referenced NPDES Permit.

Mid South Engineering Consultants LLC (MSEC) has submitted a sewer design to TDEC's review to replace the existing Extended Aeration Package Plant with a Low-Pressure Pipe Subsurface disposal of treated wastewater. The proposed new system will not have a discharge. The consensus of the Preliminary Project Discussion (PPD) Teams meeting was to keep the NPDES Permit active and modify it as opposed to changing the permit to a State Operating Permit (SOP). The reasoning being that should an open discharge be required in the future, the NPDES Permit would, more than likely, no longer be an option for the facility.

Based on my understanding of our conversation, the NPDES Permit modification would begin once construction of the new treatment system had begun and a schedule of completion was determined. The modified permit would also require some minimal sampling and the system will require a certified operator to oversee the mechanical functions of the treatment system and for the sample collection and Monthly Operating Reports (MOR's) submissions.

Please advise if I have stated anything incorrectly or need to provide additional information.

Respectfully,

James
