**Subject: Ceradyne, Inc., a 3M company
Notices of Intent Regarding Modifications to Coverage Under TN
General NPDES Multi-Sector Permit for Stormwater Discharges from
Industrial Activity - Tracking Numbers TNR053147 and TNR053148**

To Whom it May Concern:

Ceradyne, Inc., a 3M company (Ceradyne) currently operates a fused silica manufacturing, processing, blending, and warehousing facility (herein referred to as the Facility) located at 510 Midway Circle in Midway, TN. A site location map is included as Attachment A. The Facility was formerly owned and operated by Insul-Therm Acquisition Corporation and Minco, Inc. (collectively), with stormwater discharges currently covered by the TN General NPDES Multi-Sector Permit for Stormwater Discharges from Industrial Activity (General Permit) under Tracking Numbers TNR053147 and TNR053148, respectively. The Facility was acquired by 3M Company in 2013, and now operates as Ceradyne, Inc., a 3M company. Insul-Therm Acquisition Corporation was dissolved as a legal entity on Nov. 30, 2013.

As the current operator of the Facility, Ceradyne wishes to transfer General Permit Tracking Number TNR053148 from ownership under Minco, Inc. to ownership under the Ceradyne, Inc., a 3M company name, and to incorporate all Facility industrial activities and stormwater discharges under such. The Facility's industrial activities are classified under primary SIC Code 2819 (Industrial Inorganic Chemicals, NEC) and secondary SIC Code 4225 (General Warehousing and Storage). In addition, Ceradyne wishes to void General Permit Tracking Number TNR053147, as Insul-Therm Acquisition Corporation is no longer a legal entity. The required Notices of Intent (NOI) for the permit modifications requested herein are included as Attachment B.

If you have any questions regarding this information, please contact me at (423) 422-6051.

Sincerely,

Stormwater NOI Processing
