Hi John and Mike,

I just wanted to check in to see if any progress had been made at the Bickford and R3M sites, or if you have anything in the works. At the R3M site we were hoping for the sides of the stream at the removed crossing to be rock armored so that the dirt doesn't get washed away. At the Bickford site we were hoping to have the waterbar leading down to the stream repaired and additional vegetation (or for the existing vegetation to establish more).

Thank you,

Subject: BMJ Bickford and RM3 Inspection Reports - Following up from Meeting on 14th

Hi John and Mike,

Thank you for meeting with us a couple of weeks ago. Attached are those inspection reports from the BMJ Bickford and R3M sites. These are from an inspection on June 23, 2022. I had held them back at the time because we figured the meeting on July 14 would be a good opportunity to discuss them in person. As we talked about that day, we saw where y'all had made several improvements. There were just a few touch-up items that we were hoping to address while waiting for the vegetation to grow in some.

Please let me know if you have any questions.

Thank you,

Daniel Lawrence | Program Manager
