Dear Mr. McAdoo,

Attached is data submitted to the DRUC by the Hillsville Utility District for the existing inter-basin transfer of water from the Tennessee Western Valley River Basin to the Manchester Water & Sewer Department which is then transferred to the HUD that then crosses into the Upper Cumberland River Basin through the HUD distribution system to some residential customer taps.

The HUD reports that recent periods of hot weather have caused demand in the area totaling the transfer to temporarily increase beyond the grandfathered amount for the month of June 2022 as it did during the hot months of 2021.

Please contact me at your convenience if you need additional information.

Sincerely,

Randal J. Braker
