RE: Safety Inspection
North Fork Forked Deer #6 & #7
I.D.# 27-7034 & 27-7035
Gibson County

Dear Mayor Witherspoon:

The Certificate of Approval for these dams expires in June 2021. Pursuant to the reissuance of the Certificate, a safety inspection will be scheduled in the near future. Enclosed please find a renewal application for a Certificate of Approval. **The Application should be returned to the address shown on the application within thirty (30) days of receiving this application.**

It is important that the entire dam, spillways, and overflows etc. be adequately maintained and clearly visible in order to properly perform the inspection and locate any potential problems with the structure. If excess vegetation is present, we cannot adequately perform the work. **Please contact me by phone or e-mail if you have questions, or if the dam will require additional mowing/clearing before the safety inspection can be completed. We will work with you to reschedule our visit accordingly. Your cooperation and communication in having the dam prepared for the safety inspection is essential and greatly appreciated.**

Mayor Witherspoon

Page 2

You, or your representative, are welcome to participate in the inspection. If you desire to participate or be present, please contact me by e-mail or telephone at (731) 512-1357 no later than June 1, 2021 so that a date may be arranged. If you do not contact us, the inspection will be scheduled at our convenience. Your cooperation with the Safe Dams Program is appreciated.

Sincerely,

A handwritten signature in blue ink that reads "Stephen Miller". The signature is written in a cursive style.
