Received, thank you. UIC is not required for sinkhole remediation – I just wanted to verify that was the case. Please revise the NOI to include the project coordinates. That can be sent directly to me.

Thanks,

Hey Nikki,

I have some feedback from our team for sequence for the sinkhole. It will be addressed in the first of completion items on the project.

Please let me know if this helps answer your question, and if there is anything else you need from me for permitting.

Regards,

Chris Curtis

[EXTERNAL EMAIL USE CAUTION]

Chris
Attached is the detail from the geotechnical report to address the sinkhole. As long as this is completed in the beginning of construction and prior to any grading activities, a UIC permit would not be required. We are not anticipating the need to obtain a UIC permit as this and the pipe extension in this area should be some of the first items completed prior to other construction activities.

I hope this helps to answer and clarify your question. Please let us know if you need anything additional.

Jeremy

No problem. And yes – I wanted to get a quick cursory review in because I’ll be out of town next week starting at 3 today. I inquired about the sinkhole plans because depending on how it will be used sometimes UIC coverage is required. If there is question about the sink while I’m out, you can reach out to Crittenden.Stender@tn.gov.

Thanks,

Hey Nikki,

Thanks for the quick response. I'll will work on those items with the design team.

Is an email response back sufficient for the answers?

Regards,

Chris Curtis

Good afternoon,

I have done a cursory review of the submittal for the above project received by the division on 08/02/22. Please provide the project coordinates on the NOI. Additionally, the outfall table states the sinkhole will be filled during construction. Will the sink be receiving stormwater discharges during initial construction activities or will it be filled before? I see it labeled deep crevice on all sheets but didn't see additional information regarding impacts. Thanks,
