**RE: Ezell Farms Subdivision  
Permit number: TN182812 (Project); TN0064670 (Town treatment facility)  
Town of Chapel Hill**

Dear Ms. Dodd,

We have approved the design of the above referenced project consisting of Ezell Farms Subdivision and agree to own, operate, and maintain the gravity portion of the proposed sewer collection system of the project, once in operation. We will also own, operate and maintain the low-pressure sewer force main portion of the proposed sewer collection system of the project, but our current Ordinance stipulates that the Homeowner will be responsible for the ownership, operational expenses and maintenance expenses for everything on the customer side of the control valves located at the customer's property line, including the grinder pump and all appurtenances, thereto. We have conducted an analysis and determined the system has adequate capacity and that the project will not create or exacerbate any overflow problems.

Sincerely,

Donny Groves, Utility Manager
