**RE: Two Eighty Exchange Subdivision
Sewer System Expansion
City of Baxter Permit Number: TN0021121
Baxter, Tennessee**

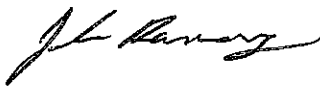

Dear Ms. Dodd,

We have approved the design of the above referenced project consisting of installation of new gravity sewer and components to serve the proposed subdivision and agree to own, operate and maintain the proposed project once in operation.

This project will be discharging to an existing gravity sewer line within the Baxter collection system that terminates at our Olan Maxwell Pump Station which is not currently on-line due to no customers. The Olan Maxwell Pump Station is currently under contract to be brought on-line as was previously approved by the department (21.0622) with construction to be scheduled for completion in early 2023.

Should you have any questions or need additional information, kindly let us know. You may email me at baxterwater@twlakes.net or contact me by telephone at (931) 858-4111.

Sincerely,
For the City of Baxter

John Ramsey, Manager
