Re: Town of Rossville Pretreatment Dormant Status Request  
Rossville Pretreatment Program  
NPDES Permit No. TN0064092  
Fayette County

Dear Ms. O'Neil:

The Town of Rossville would like to request dormant status on the pretreatment program. The Town of Rossville only has one SIU, the Kellogg's Eggo facility, located at 585 Morrison Rd, Rossville, Tn 38066. The SIU has been closed down and starting May 31, 2024, all wastewater from the SIU is being hauled off site. The Effluent pumps for the SIU have been shut down and locked out to prevent any discharge to the Town of Rossville STP. In addition, the Town of Rossville Wastewater Operator shut down and locked out the effluent valves with Tag Out equipment ensuring that only a Rossville Wastewater representative can reactivate the discharge. In the event that another SIU procures this location the Town of Rossville will inform the Division of Water Resources and request active status before allowing any discharge to the Rossville STP.

If you have any questions or concerns, please reach out to me at 901-853-4681 or [RossvillePublicworks@Yahoo.com](mailto:RossvillePublicworks@Yahoo.com)

Thank you,

A handwritten signature in blue ink, appearing to read "Joseph Howell", is written over the "Thank you," text.

Joseph Howell  
Director of Public Utilities  
Town of Rossville
