Rossville, TN 38066

Re: Pretreatment Program Status Change  
Rossville Pretreatment Program  
NPDES Permit No. TN0064092  
Fayette County

SENT VIA ELECTRONIC MAIL TO: [townwork@att.net](mailto:townwork@att.net)

Dear Mayor Watters:

The Division of Water Resources acknowledges receipt on June 17, 2024, of Rossville's request to discontinue having an approved pretreatment program. Based on conversations had with Rossville personnel, it is the Division's understanding that Rossville would like to have a dormant pretreatment program. The Rossville STP does not currently receive process wastewater from any significant industrial users (SIU). Therefore, the Division is changing the status of Rossville's pretreatment program from active to dormant.

A dormant program is not considered an officially approved pretreatment program, and Rossville will have to reactivate the pretreatment program prior to accepting any industrial process wastewater. In addition, Rossville will have to meet the pretreatment requirements in section 3.2 of the revised NPDES permit and submit an annual report. The first annual report will be due January 31, 2025 and a copy of the annual report form is included with this letter.

If you have any questions, please contact me at 615-961-4440 or [Samantha.Oneil@tn.gov](mailto:Samantha.Oneil@tn.gov).

Sincerely,

Samantha O'Neil  
State Pretreatment Coordinator  
Enforcement and Compliance Unit
