Re: Notice of Change in Entity Name for SOP Permit #SOP-98026 – Arconic US LLC (formerly Arconic Tennessee LLC)

Dear Mr. Janjic:

This letter is to provide you with advance notice that Arconic Corporation is going through an internal corporate restructuring and entity consolidation project, and as part of that effort, Arconic Tennessee LLC, a wholly-owned subsidiary of Arconic Corporation and the permittee concerning the active State Operating Permit (SOP) for the south plant domestic sewage holding tank system, #SOP-98026, will be merged into its sister company, Arconic US LLC., another wholly-owned subsidiary of Arconic Corporation. The effective date is January 1, 2023. A new secretary of state (STS) control number has already been registered for Arconic US LLC. The facility has transitioned from STS Control #001076240 to #001340417. The company will have a new EIN number as well, which will be 88-2321071.

In the next few weeks, we will be sending you documents with the appropriate permit amendment information. We'd like to confirm the following:

- Appropriate paperwork to submit for the permit amendment
- When do we need to submit paperwork and who to address it to?
- Any fees associated with the permit amendment, what type of payment they accept (cheque or credit card), and where to address it to?

In the meantime, if you have any questions or would like to discuss, please contact Ryan Hennessey at 865-977-2403 or ryan.hennessey@arconic.com with any questions.

Sincerely,

A handwritten signature in blue ink that reads "Ryan Hennessey". The signature is fluid and cursive, with the first name "Ryan" being more prominent.

Ryan Hennessey
Environmental Engineer
