**Re: *Mallard Point Subdivision
Sewer System Extension
Alamo, TN – Crockett County***

Dear Ms. Dodd:

We have approved the design of the above reference project consisting of approximately 2,090' of new sewer main, sewer lift station and 1,040' of sewer forcemain and agree to own, operate and maintain the proposed project once in operation. We have conducted an analysis and determined the system has adequate capacity and that the project will not create or exacerbate any overflow problems.

Sincerely,

John Avery Emison
City of Alamo

CC: Angela Jones, PE, Manager, Engineering Services
