Dear Operator Harmon:

The Division of Water Resources (DWR) appreciates your dedicated efforts to delivering safe drinking water.

Byrdstown Water Department, TN0000088, has successfully completed the monitoring of lead and copper at consumer taps during the compliance period of June 1 - September 30, 2021.

However, we have not yet received the required documentation of the participant notice activities as outlined in Tenn. Comp. R. & Regs. ("Rule[s]") Chapter § 0400-45-01-.33(6)(e). Examples of these documents are attached for reference, *CN-1595* and *Consumer Notification Example*.

If you believe the violation listed above has been identified incorrectly, submit copies of the documents to validate that the requirements were timely completed; these should be submitted to [DWRWater.Compliance@tn.gov](mailto:DWRWater.Compliance@tn.gov) within 10 days of this notice. Failure to do so will cause the violation to become valid and reported to the United States Environmental Protection Agency.

If you should need assistance, please contact Cookeville Environmental Field Office at (931) 521-6688 or Sophia DeMarse in the Nashville Central Office at (615) 532-0649 or [sophia.demarse@tn.gov](mailto:sophia.demarse@tn.gov).

Sincerely,

Sophia DeMarse  
Compliance and Enforcement Unit, Division of Water Resources
