

CN 1251 (Rev. 03-19)

Tennessee Department of Environment and Conservation Division of Water Resources

William R. Snodgrass - Tennessee Tower 312 Rosa L. Parks Avenue, 11th Floor Nashville, Tennessee 37243-1102 (615) 532-0625

RDA 2366

APPLICATION FOR A STATE OPERATION PERMIT (SOP) 16009

Type of application: New Permit	Permit Reissuance	Permit Modi	fication	
Permittee Identification: (Name of city, town, industry, corporation, individual, etc., applying, according to the provisions of Tennessee Code Annotated Section 69-3-108 and Regulations of the Tennessee Water Quality Control Board.)				
Permittee Name (applicant): Agua Green Utility	Ivc			
Permittee Address: 3350 Galts Rd A	cworth GA	3010)2	
Official Contact: Dart Kendall	Title or Position:	esiden	+	
Mailing Address: 3350 Galts Rd	City:	State:	Zip:	
Phone number(s): 365-908-0432 404-557-3170	E-mail:	vatilit	y-com	
Optional Contact:	Title or Position:			
Address:	City:	State:	Zip:	
Phone number(s):	E-mail:	L		
Application Certification (must be signed in	accordance with the	requiren	nents of Rule 0400-	
40-0505)				
I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. As specified in Tennessee Code Annotated Section 39-16-702(a)(4), this declaration is made under penalty of perjury.				
Name and title; print or type Dart Kendall President	Signature)	Date 6/11/22

Permit Number: SOP-16009

For Drip Dispersal Systems Only: Unless otherwise determined by the Department, sewage treatment effluent wells, i.e, large capacity treatment/drip dispersal systems after approval of the SOP Application, will be issued an UIC tracking number and will be authorized as Permit by Rule per UIC Rule 0400-45-06-	N/A
.14(2) and upon issue of a State Operating Permit and Sewage System	/ ~
Construction Approval by the Department. Describe the following:	
The area of review (AOR) for each Drip Dispersal System shall, unless otherwise s Department, consist of the area lying within a one mile radius or an area defined by us under 0400-45-0609 of the Drip Dispersal System site or facility, and shall include, but regeneral surface geographic features, general subsurface geology, and general demographed features within the area. Attach to this part of the application a general characterizatincluding the following: (This can be in narrative form)	ing calculations of be limited to hic and cultural
A general description of all past and present groundwater uses as well as the general a flow direction and general water quality.	
A general description of the population and cultural development within the AOR (i.e. a commercial, residential or mixed)	
Nature of injected fluid to include physical, chemical, biological or radiological characters	
If groundwater is used for drinking water within the area of review, then identify and lot topographic map all groundwater withdrawal points within the AOR, which supply public drinking water systems. Or supply map showing general location of publicly supplied warea (this can be obtained from the water provider)	c or private
If the proposed system is located within a wellhead protection area or source water pr designated by Rule 0400-45-0134, show the boundary of the protection area on the fa	
Description of system, Volume of injected fluid in gallons per day based upon design fl any monitoring wells	
Nature and type of system, including installed dimensions of wells and construction m	aterials
Pump and Haul:	∑ N/A
Reason system cannot be served by public sewer:	
Distance to the nearest manhole where public sewer service is available:	
When sewer service will be available:	
Volume of holding tank: gal.	
Tennessee licensed septage hauler (attach copy of agreement):	
Facility accepting the septage (attach copy of acceptance letter):	

CN 1251 (Rev. 03-19) RDA 2366

Describe methods to prevent and respond to any bypass of treatment or discharges (i.e., power failures,

Latitude and Longitude (in decimal degrees) of approved manhole for discharge of septage:

equipment failures, heavy rains, etc.):

Holding Ponds (for non-domestic wastewater only):	V N/A	
Pond use: Recirculation Sedimentation Cooling Other (describe):	κ	
Describe pond use and operation:		
If the pond(s) are existing pond(s), what was the previous use?		
Have you prepared a plan to dispose of rainfall in excess of evaporation? Yes	No	
If so, describe disposal plan:		
Is the pond ever dewatered? Yes No		
If so, describe the purpose for dewatering and procedures for disposal of wastew sludge:	vater and/or	
Is(are) the pond(s) aerated? Yes No		
Volume of pond(s): gal. Dimensions:		
Is the pond lined (Note if this is a new pond system it must be lined for SOP coverage. Otherwise, you must apply for an Underground Injection Control permit.)? Yes No		
Describe the liner material (if soil liner is used give the compaction specifications):		
Is there an emergency overflow structure? Yes No		
If so, provide a design drawing of structure.		
Are monitoring wells or lysimeters installed near or around the pond(s)?	No	
If so, provide location information and describe monitoring protocols (attach addition necessary):	nal sheets as
