

Tracking Number TNR122613

NOTICE OF COVERAGE UNDER THE GENERAL NPDES PERMIT FOR STORMWATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY (CGP)

Tennessee Department of Environment and Conservation
Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, TN 37243

Under authority of the Tennessee Water Quality Control Act of 1977 (T.C.A. 69-3-101 et seq.) and the delegation of authority from the United States Environmental Protection Agency under the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 (33 U.S.C. 1251, et seq.):

Name of the Construction Project: **STTN MRM SWPPP (34.51 acres)**
Master Tracking Number at the Site: **TNR122613**
Permittee Name: **Megasite Authority of West Tennessee**
Project Name: **Megasite Water Treatment Plant, Site Water, North Water Tower Project**
Contractor(s): **Brasfield & Gorrie, L.L.C. - Contact - Tom Marcum (July 1, 2022)**

is authorized to discharge: storm water associated with construction activity
from site located at: **2672 Keeling rd, Haywood County**
to receiving waters named: **Little Muddy Creek and multiple tributaries to Big Muddy Creek**

in accordance with effluent limitations, monitoring requirements and other conditions set forth herein.

Likely presence of threatened or endangered species in one mile radius: **NO**
Likely presence of threatened or endangered species downstream: **NO**

Additional pollution prevention requirements apply for discharges into waters which TDEC identifies as:
- **Unavailable Condition - Siltation**

- **Exceptional Tennessee Waters: NO**

Your coverage under the CGP shall become effective on **July 1, 2022**, and shall be terminated upon receipt of [Notice of Termination](#).

A copy of the CGP can be obtained from

Subject: **NPDES Construction General Permit Tracking No. TNR122613**
 Master Tracking Number: TNR122613
 STTN MRM SWPPP
 Megasite Authority of West Tennessee
 stanton, Haywood County, Tennessee

Dear Mr. Bright:

You recently submitted a Notice of Intent (NOI) form as part of an application package to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity. The Division of Water Resources (the division) acknowledges receipt of the most recent version of the application for the above referenced project on June 24, 2022. After review, the application was deemed to be complete on July 1, 2022. Enclosed is the Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc.

Contractor Information

We do not transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

Storm Water Pollution Prevention Plan (SWPPP)

You have submitted a Storm Water Pollution Prevention Plan (SWPPP) as required by Section 1.4.2 of the CGP. Please note that the division has not performed an engineering review of the SWPPP and does not certify whether the SWPPP adequately provides for the pollution prevention requirements at the site as described in the general permit. The division acknowledges that you have submitted a SWPPP that appears to include the required components of a SWPPP. It is the responsibility of all site operators to design, implement, and maintain measures that are sufficient to prevent pollution at the referenced site, and to remain in compliance with the terms and conditions of the general permit.

Receiving Stream not Supporting Designated Uses

The receiving stream for the construction site for which the NOI was submitted appears on the state's list for partially supporting or for not supporting a stream's designated use due to siltation. Since the discharge from the proposed construction site may contain significant amounts of silt, the division considers the

potential for degradation to the receiving stream from the discharge to be significant. Therefore, the additional pollution prevention requirements described in Subpart 6.4 of the General Permit are applicable to your construction site; requirements of Section 6.4.2. apply only if the stream is located on or adjacent to the disturbed area.

ARAP Permit Requirements

Please be reminded that alterations to water of the state are not authorized until the associated individual Aquatic Resource Alteration Permit (NRS22.127) is issued.

Annual Maintenance Fee and Termination of Permit Coverage

Effective July 1, 2014, permit fees for the General Permit have been revised. In addition to new application fee amounts, annual maintenance fees are now required for projects that exceed one year of coverage. Permittees wishing to terminate coverage must submit a completed notice of termination (NOT) form, which is available on the division's construction stormwater webpage at <https://www.tn.gov/content/tn/environment/permit-permits/water-permits1/npdes-permits1/npdes-stormwater-permitting-program/npdes-stormwater-construction-permit.html>.

The division will review the NOT for completeness and accuracy and, when necessary, investigate the site for which the NOT was submitted. The division will notify the applicant that either the NOT form was received and accepted, or that the permit coverage is not eligible for termination and has not been terminated. If applicable, the notification will include a summary of existing deficiencies.

We appreciate your attention to the general construction storm water permit and its requirements. A copy of the CGP can be obtained from <https://www.tn.gov/content/tn/environment/permit-permits/water-permits1/npdes-permits1/npdes-stormwater-permitting-program/npdes-stormwater-construction-permit.html>. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Mr. Gregory Overstreet at (731) 225-2689 or by e-mail at Gregg.Overstreet@tn.gov.

Sincerely,

Conner Franklin
Environmental Program Manager
