Mr Montenegro,

Please find attached a Request for Addendum to Permit Draft #TN00025020. Thank you.

18 Dec 2023

Mr. Oscar Montenegro,

I am reaching out to you in reference to the draft of permit #TN00025020 for the operation of the WWTP for Madisonville, Tn.

Specifically, concerning the new Ammonia (as N) discharge limitations, we are requesting that an addendum be attached to the permit, allowing Madisonville an additional 12 months before enforcement of the new discharge limitation.

This will allow time for Madisonville to effect repairs or upgrades to our collection system. These repairs will enable us to more consistently meet the new demands of the permit.

Sincerely,

John Motes

Madisonville WWTP Operator
