

Certification:

"I certify under penalty of law that either: (a) all stormwater discharges associated with construction activity from the portion of the identified facility where I was an operator have ceased or have been eliminated or (b) I am no longer an operator at the construction site. I understand that by submitting this notice of termination, I am no longer authorized to discharge stormwater associated with construction activity under this general permit, and that discharging pollutants in stormwater associated with construction activity to waters of the United States is unlawful under the Clean Water Act where the discharge is not authorized by an NDPES permit. I also understand that the submittal of this notice of termination does not release an operator from liability for any violations of this permit of the Clean Water Act. As specified in Tennessee Code Annotated Section 39-16-702(a)(4), this declaration is made under penalty of injury.

Primary permittees is terminating permit coverage, the conditions described below occur at the site:

i. All earth-disturbing activities and, if applicable, construction support activities at the site are complete and the following conditions are met:

a) For any areas that were disturbed during construction, are not covered over by permanent structures, and over which the permittee had control during the construction activities; the requirements for final vegetative or non-vegetative stabilization described in the definition of final stabilization are met.

b) The permittee has removed and properly disposed of all construction materials, waste and waste handling devices. The permittee has removed all equipment and vehicles that were used during construction, unless intended for long-term use following termination of permit coverage.

c) The permittee has removed all stormwater controls that were installed and maintained during construction, except those that are intended for long-term use following termination of permit coverage.

d) There are no ongoing stormwater controls left on site.
