Subject: RE: I-75 Quarry West -TN0063355 NetDMR Question

Hi Alisa,

Thank you for the information. We have seen SW1 outfalls for 2021 disappear from our system on other permits as well., so it's something in the system. I have CC'd Corey Click on this email chain to bring him in the loop and will upload this email to our data viewer if there are future questions.

Sincerely,

Bonnie Craighead

Subject: [EXTERNAL] RE: I-75 Quarry West -TN0063355 NetDMR Question

Ok, great. I added this note to the DMR's.

Also, I just submitted the DMR's for the Tri-Cities Airport Quarry (TN0027588). Outfall SW1 did not have a DMR in the system for 2021. It does have one for 2022. Since the permit was effective on December 1, 2021 where this outfall was added and Outfall 004 was removed, I added a note that there was no discharge for SW1 and no 2021 DMR was found in the NetDMR system to submit. You should see that in the notes section of the December 2021 DMRs for this permit.

Thanks,

Alisa

Subject: RE: I-75 Quarry West -TN0063355 NetDMR Question

Hi Alisa,

Yes, add a note in there and I will note this when we do the DMR review. If something automatically flags in the system we can revisit, but from what we can see on our end it won't be an issue next quarter.

Thanks!

Hi Bonnie,,

I am working on our DMR's and noticed that the I-745 West Quarry's DMR's only noted the period from 11/1 - 12/31/2021. I did not see any DMR's for October. This site has a quarterly sample requirement. Last quarter, we had a monthly DMR for July, then the next DMR included the period between 8/1 - 9/30. The new permit with the quarterly requirement went into effect on 8/1. Below are screenshots from what I see on my end in the system. Do I need to add a note that this DMR should include October since it is a quarterly monitoring requirement?

Thanks,

Alisa
