Subject: **Annual Maintenance Fee**
NPDES Construction General Permit Tracking No. TNR171794
Cadet Farms
Lafayette, Macon County, Tennessee

Dear Mr. Gregory:

According to Tennessee's permit fee Rules 0400-40-11, annual maintenance fees apply to Construction General Permit (CGP) coverages that are effective for more than one year. This correspondence is a courtesy notification that the anniversary of the CGP coverage is nearly here. TDEC will apply the annual maintenance fee if the permitted activities will continue after that date. This permit's coverage became effective on 9/10/2014.

Activities that have been completed within a year must satisfactorily terminate the related CGP coverage, or the coverage will be considered active. If coverage under the permit remains active an annual maintenance fee invoice will be issued. If construction activity meets the requirements for termination identified in Section 8 of the current CGP, a completed notice of termination (NOT) form should be submitted to the division prior to the permit anniversary date. The NOT form can be obtained on the division's website at: <http://www.tn.gov/environment/permits/conststrm.shtml>.

There is no need to pay a fee now. An invoice will be generated during the month after the anniversary date for this permit. The division will send the invoice to the owner/developer responsible for the project unless a separate billing contact is designated. This notification letter is sent to the contacts and addresses we have on record for the permit, typically those contact people who were on the initial Notice of Intent (NOI) used to get the permit.

If you have questions, please contact your local Environmental Field Office at (931) 432-4015.

Sincerely,
Division of Water Resources
