

DEPARTMENT OF ENVIRONMENT AND CONSERVATION
DIVISION OF WATER RESOURCES

William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 11th Floor, Nashville, TN 37243

NOTICE OF INTENT (NOI)
for Process Wastewater and Stormwater Runoff Associated with a
READY MIXED CONCRETE FACILITY

This application is for: ☒ New Permit ☐ Permit Reissuance ☐ Permit Modification
(Include the existing permit tracking number: TNG11____)

Complete form and return to address above.

Facility Name: Smyrna Ready Mix Gallatin Mobile Plant		County: Sumner	
Street Address or Location: 1432 Gateway Drive - Approx. 0.35 East of Cul-de-sac		Latitude (DD.DDD):	36.406499
List the Total Acres of facility: 5.0		Longitude (DD.DDD):	-86.377311
		Attach site location map (topo, internet, county, etc.) <input checked="" type="checkbox"/> Map attached	

Owner or Operator: (the person or legal entity which controls facility's operation; this may or may not be the same as the facility name or the official contact name)
Jeff Hollingshead

1	Official Contact Person Name: (individual responsible for a facility) Jeff Hollingshead		Title or Position: CEO	
	Mailing Address: 1136 Second Avenue North		City: Nashville	State: TN Zip: 37208
	Phone: 615-355-1028		E-mail: jeff@smyrnareadymix.com	

2	Local Contact Person Name: (if appropriate, write "same as #1") Jim White		Title or Position: Environmental Director	
	Facility Address: (this may or may not be the same as street address) 1432 Gateway Drive - Approx. 0.35 East of Cul-de-sac		Facility City: Gallatin	State: TN Zip: 37066
	Phone: 931-703-4077		E-mail: jwhite@smyrnareadymix.com	

Write in the box (to the right) or circle the number (above) to indicate where to send correspondence: **1**

READY MIX CONCRETE FACILITY DESCRIPTION (Indicate the type and number of discharges for which you are seeking permit coverage.)

<input checked="" type="checkbox"/> Process wastewater (wash water)	Number of outfalls: 1	Receiving stream: Misc. tributaries to Old Hickory Reservoir
<input checked="" type="checkbox"/> Stormwater runoff	Number of outfalls: 1	Receiving stream: Misc. tributaries to Old Hickory Reservoir
Process waste water treatment description (ponds, filters, other (please describe)): Settling Ponds, Sediment bags, filters, Recycling		
Stormwater treatment description (ponds, filters, other (please describe)): Sediment basin, rock filters		
Does this operation recycle <input checked="" type="checkbox"/> process waste water and/or <input type="checkbox"/> storm water?		Is this a no discharge system? <input type="checkbox"/> Yes (attach plans) <input type="checkbox"/> No
Reclaim/recycle system description: Water will be recycled for various uses on job site, samples will be taken in event of discharge		
Has a Storm Water Pollution Prevention Plan (SWPPP) been developed? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Give location(s) of any regularly used truck washout sites (other than the plant site itself or an active job site). Note that the property must be privately owned and the written permission from the owner to wash out on his property must be obtained. Attach additional pages if necessary.		

CERTIFICATION AND SIGNATURE

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. As specified in Tennessee Code Annotated Section 39-16-702(a)(4), this declaration is made under penalty of perjury.

	Impaired Receiving Stream		NOC Date	Reviewer

READY MIXED CONCRETE GENERAL PERMIT (RMCP) NOTICE OF INTENT (NOI) - INSTRUCTIONS

Complete the form - Type or print clearly, using black or blue ink; not markers or pencil. Answer each item or enter "N/A," for not applicable. If you need additional space, attach a separate piece of paper to the RMCP NOI (Notice of Intent). **Requesting coverage under this permit means that an applicant has obtained and examined a copy of this permit, and thereby acknowledges applicant's ability to be in compliance with permit terms and conditions.** This permit is required for discharges of storm water runoff and process wastewater associated with ready mixed concrete facilities. This form should be submitted prior to the effective date of the new General Permit for existing permit, or at least 30 days prior to the commencement of operation of the ready mixed concrete facility for new facilities.

Permittee Identification/Facility Identification - Describe and locate the project, use the legal or official name of the facility or site. Provide the latitude and longitude (expressed in decimal degrees) of the center of the site, if available. This can be obtained on most internet mapping sites. If a new facility, attach a copy of a map, showing location of site, with boundaries at least one mile outside the site boundaries. The map may be from any common internet mapping service, USGS, or any alternative recognized mapping service.

Identify Discharges (Outfalls) - The permit identifies two types of discharges. Stormwater discharges consist of rainwater that runs over process, storage, and roadway areas and is contaminated by industrial pollutants (raw materials, finished products, oils, grease, etc.) Process water discharges consist primarily of wash water used to wash down trucks and equipment. Previous permits defined mixed wastewater as a combination of process wastewater and industrial stormwater runoff. However, mixed wastewater discharges must now be treated as process wastewater. All these wastewaters are normally (but not always) collected in retention basins or ponds for treatment. If treatment is involved, the outfall is the point at which the wastewater exits the treatment system; otherwise, the outfall is at a point where there is no dilution by rainfall. See the permit for further definition.

A storm water pollution prevention plan (SWPPP) - shall be developed and implemented for each facility covered by this permit. Storm water pollution prevention plans (SWPPPs) shall be prepared in accordance with good engineering practices and in accordance with the factors outlined in 40 CFR 125.3(d)(2) or (3) as appropriate. In addition, the SWPPP shall describe and ensure the implementation of practices that are to be used to minimize the discharge of pollutants and to assure compliance with the terms and conditions of this permit.

Give the name(s) of receiving waters - To the best of your ability, trace the route of stormwater runoff and process water discharges from the site and determine the name of the river(s), stream(s), creek(s), wetland(s), lake(s) or any other water course(s) into which discharge drains. Note that the receiving water course may or may not be located on the site.

Submitting the form - Note that this form must be signed by the company President, Vice-President, or a ranking elected official in the case of a municipality, for details see subpart 3.5 of the general permit. We accept and encourage electronic document submittals by scanning and emailing or faxing. Submit the completed NOI form (keep a copy for your records) to the division at the following address:

RMCP NOI Processing
Tennessee Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, TN 37243

Notice of Coverage - The division will review the NOI for completeness and accuracy and transmit to the permittee a Notice of Coverage (NOC).

Obtaining more information/assistance - For more information or assistance, contact your local Environmental Field Office (EFO), toll-free, at 1-888-891-8332 (TDEC) or at the number listed below.
