Subject: Ready Mix Concrete Permit TNG110095

Good morning, Mr Henson.

I'm reviewing your Notice of Intent (NOI) for Ready-Mix Concrete Plant (RMCP) permit coverage. I have a couple of questions:

- Do you have any process wastewater (wash water from trucks, etc.)? I see you've listed 0 outfalls for Process wastewater and a retention pond for treatment. However, it states there are 2 outfalls for stormwater with no treatment description. It also states that the site is a no discharge system. Where does the stormwater go if it isn't discharged? Does it combine with the retention ponds used for process waste water. Do you recycle any of your process waste water and/or stormwater?

READY MIX CONCRETE FACILITY DESCRIPTION (Indicate the type and number of discharges for which you are seeking a permit)

<input type="checkbox"/> Process wastewater (wash water)	Number of outfalls: <u>0</u>	Receiving stream:
<input type="checkbox"/> Stormwater runoff	Number of outfalls: <u>2</u>	Receiving stream: Hunter Branch
Process waste water treatment description (ponds, filters, other(<i>please describe</i>)):		Retention Pond
Stormwater treatment description (ponds, filters, other(<i>please describe</i>)):		none
Does this operation recycle <input type="checkbox"/> process waste water and/or <input type="checkbox"/> storm water?	Is this a no discharge system? <input checked="" type="checkbox"/> Yes (attach plan) <input type="checkbox"/> No	
Reclaim/recycle system description: none		
Has a Storm Water Pollution Prevention Plan (SWPPP) been developed?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Give location(s) of any regularly used truck washout sites (other than the plant site itself or an active job site). Note that the property is		

Thank you for taking a look at this and clarifying.
