Re: 2023 Annual Report

City of Collegedale
State Operating Permit #89136

Dear Angela Oberschmidt:

Please find below the City of Collegedale's annual report for 2023 for our collection system.

Sanitary Sewer Overflows

The City of Collegedale experienced NO releases in 2023.

Capital Improvements

The City of Collegedale Sewer Department was awarded the "DWR-ARP Non Collaborative State Water Infrastructure Grant (SWIG) Program" for the Pump Station Upgrade and Asset Management Plan for \$1.403 Million.

A Professional Services contract was awarded to CCI for the Pump Station Modernization in the amount of \$302,000 as part of TDEC's ARP Grant program. This initial contract will result in the development of final design documents for the complete overhaul of the City's main station.

CMOM (Capacity, Management, Operations and Maintenance)

Bobby Luttrell of Dundee, KY completed the Cleaning and TV contract. The contract consisted of 72,843 LF of 8-inch to 10-inch, 4,100 LF of 12-inch to 18-inch and 200 LF of 24-inch to 48-inch gravity sewer pipe. The Final cost of \$193,384.

CTR Coatings finished the 1st part of the Manhole Lining Contract in the 3rd quarter. The contract consisted of 117 manholes, 1009 VF and cost of \$252,405. CTR re-mobilized and finished the 2nd part of cleaning/lining manholes in the 4th quarter. The contract consisted of 35 manholes, 377 VF and cost of \$94,250. This continues a multi-year contract with the City to upgrade/rehab all sanitary manholes within our collection system.

The City re-laid 363 LF of 8" pipe and 2 Manholes at the Little Debbie Factory Store.

Robbie Derrick

1.1 Introduction

1.2 Purpose

The City of Collegedale is required to submit reports on an annual basis to the Tennessee Department of Environment and Conservation (“TDEC”) and the City of Chattanooga. Collegedale has prepared a Annual Report to satisfy the requirement of S.O.P. #89136 dated August 3, 2020.

1.3 Requirements

The City of Collegedale is required to report the date, time, location, source, estimated duration and volume, and receiving water of the following events:

1. All Releases during events in this period.
2. Sanitary Sewer Overflow (“SSO”) events during this period.

This information is provided in tabular form in Section 2.2 of this report.

2.0 SSO Events

For the reporting period of January 1, 2023 to December 31, 2023. Collegedale experienced **NO** Release's. The Release's list is in Table 2-1.

A “release” is the flow of sewage from any portion of the collection or transmission system owned or operated by the permittee other than through permitted outfalls that does not add pollutants to waters. In addition, a release”includes a backup into a building or private property that is caused by blockages, flow conditions, or other malfunctions originating in the collection and transmission system owned or operated by the permittee. A “release” does not include backups into a building or private property caused by blockages or other malfunctions originating in a private lateral.

A “sanitary sewer overflow (SSO) is defined as an unpermitted discharge of wastewater from the collection or treatment system other than through the permitted outfall.
