The City of Jackson, Boren and Boyd, the Bank of Jackson, and WBBJ-TV have partnered to give back to small businesses in West Tennessee through a monthly competition.

This month's winner of the Corporate Entrepreneur Grant is Jacob Pierson Plumbing, winning a \$6,000 advertising campaign.

Jacob Pierson Plumbing is located in Gibson County and offers plumbing services, including drain cleaning, well repair, gas line installation, remodels, and emergency services.

Pierson says he's never applied for a grant like this before and believes it will really help his business thrive.

He had a message for those that may be on the fence about applying.

"Anyone who is hesitant to apply for something like this, whether it be pride or ego, everybody needs a hand up every now and then. And this is a great opportunity. I'm glad I applied for it," Pierson said.

You still have a chance to win this grant as well. A new small business will be selected as the winner for the month of December.
