Re: Transmittal of Preliminary Engineering Report  
Town of Ardmore, Giles County  
Wastewater Project Number 24.0016  
Project: Sewer System Rehabilitation

---

Receipt is acknowledged on January 5, 2024, of the above-referenced preliminary engineering report. The project is associated with permit SOP-08029 and consists of gravity sanitary sewer rehabilitation, upsizing two sections of gravity line from an 8-inch to a 10-inch line and replacement of several existing lift stations.

The chosen alternatives are to realign a portion of the Hamlett St. sewer to avoid a bottleneck in the system, upsize an undersized portion of the Sonic & O'Reilly basin and replace several aged and deteriorated lift stations (Huddlehouse, TN-7, Chevron and Austin Witt). The project budget includes rehabilitation of lines in the associated basins as well, if remaining funding allows.

The Engineering Services Unit has no objection to the chosen alternatives. The facility should upload this memo and approved files to their ARP grant file.

To expedite matters, please reference the assigned wastewater project number 24.0016 on any future correspondence. If we may be of any assistance, please feel free to contact Mr. Tim Hill, P.E. at (865) 364-9535 or by E-mail at [Timothy.Hill@tn.gov](mailto:Timothy.Hill@tn.gov).
