RE: Completeness Review – Proposed Major Permit Modification
Vertical Expansion F-2 Phase
Yarnell Road Demolition Landfill, DML 47-0069

Dear Mr. Shires:

The Division of Solid Waste Management has reviewed the application to raise the grades in Phase F-2 as presented by SCS Engineers on January 29, 2018 with revised or added content received on April 2, 2018. The permit application for the facility has been reviewed for compliance with the Tennessee Solid Waste Disposal Act, Tennessee Code Annotated § 68-211-101 *et seq.* and with the Tennessee Solid Waste Regulations, Rule Chapter 0400-11-01, and has been deemed to be complete. A complete application does not constitute approval of any part of the application and a detailed technical review will now be performed. Comments, questions, or request for additional information during this review as identified will be forwarded as this review process continues.

If you have any questions, please do not hesitate to contact me at (865) 594-5474.

Sincerely,
