Project Description	
Depending on project type, including but not limited to: Linear feet, diameter, and type, (force main, gravity sewer, low pressure sewer); engineering drawings with utility signature; treatment/pumping capacity. For line rehabilitation: linear feet and size by activity, e.g., replacement, pipe-bursting, cured-in-place, slip-line, TV inspection, smoke testing; number of manhole or service lateral rehabs.	
Modifications of West Irish Street Pump Station on Bandy Road. Installation of a factory built duplex station with 200 GPM at 92' head pumps mounted on existing wet well and abandoning the existing dry well. +

Is your system on a moratorium? No	
Is it self-imposed? No	
If yes, provide information that the proposed project would be in compliance with existing moratorium restrictions:	
Utility Letter	
A letter is attached from the utility demonstrating:	
1) It has conducted the capacity analysis for this project and it will not create any capacity or overflow problems	
2) They approved the design, and agree to own, operate and maintain the proposed projects once in operation	
Yes
