                         **Jacob Lovett**  
                         **Buchanan, Henry County, Tennessee**

Dear Mr. Lovett:

The Division of Water Resources (the division) acknowledges receipt of the Notice of Intent (NOI) form for the above referenced project. The NOI was received on April 3, 2018. The NOI was submitted to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity.

A review of the submitted form showed that the NOI was incomplete. We have assigned this project NPDES Permit tracking number TNR122058. No discharges of stormwater associated with construction activity are authorized by the general permit until the completed NOI is submitted and Notice of Coverage (NOC) issued by the division.

**Insufficient permit application fee**

The permit application fee should accompany the NOI form. The fee schedule is based on the total acreage to be disturbed by an entire construction project, including any associated construction support activities. According to your NOI, the total area to be disturbed is 5 acres, with a corresponding fee of \$XXX. The check you submitted was for \$XXX. In order for the division to process your NOI, please submit a check for the difference of \$XXX.

**Storm Water Pollution Prevention Plan (SWPPP)**

The division acknowledges receipt of your SWPPP as fulfillment of the SWPPP submittal requirement for this construction site. Please note that the division has not performed an engineering review of the SWPPP and does not certify whether the SWPPP adequately provides for the pollution prevention requirements at the site as described in the General Permit. The division acknowledges that you have submitted a SWPPP that appears to include the required components of a SWPPP. It is the responsibility

of all site operators to design, implement, and maintain measures that are sufficient to prevent pollution at the referenced site, and to remain in compliance with the terms and conditions of the General Permit.

**Contractor Information**

The division does not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

.. We appreciate your attention to the general construction stormwater permit and its requirements. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Mr. Brian Wallace at (731) 512-1365 or by e-mail at [Brian.Wallace@tn.gov](mailto:Brian.Wallace@tn.gov).

Sincerely,

A handwritten signature in blue ink that reads "Conner Franklin". The signature is written in a cursive, flowing style.

Conner Franklin
