Franklin Co.

Dear Ms. Dodd,

We have approved the design of the above referenced project consisting of gravity-fed lines to pump station and pumped back to gravity sewer lines and agree to own, operate, and maintain the proposed project after one year in operation. We have conducted an analysis and determined the system has adequate capacity and that the project will not create or exacerbate any overflow problems.

Sincerely,

Kenny Henshaw
Cowan Waterworks & Sewer Plant Superintendent

Dear Ms. Dodd,

We have approved the design of the above referenced water line project as predetermined on plans and agree to own, operate, and maintain the proposed project after one year in operation. We have conducted an analysis and determined the system has adequate capacity and that the project will not create or exacerbate any overflow problems.

Sincerely, 

Kenny Henshaw
Cowan Waterworks & Sewer Plant Superintendent
