Re: Compliance Status Notification - Public Notice Rule
PWSID: TN0002618

Mr. CULLER:

The Division of Water Resources appreciates the dedicated efforts of the BAYS MTN PARK WATER SYSTEM to meet the requirements of the Tennessee Safe Drinking Water Act (SDWA). After reviewing the records maintained by the Division, this water system was identified as being required to perform Public Notice(s) during the 2016 to 2020 period. After reviewing Division records, the Public Notice(s) have not been located.

Specifically, on 8/3/2015 this water system was notified of a monitoring violation for TCR sampling, PN performed 6 months late.. Based on the violation's Tier Level (Tier 3), Public Notice was required to be performed before 8/3/2016.

If you believe the above Public Notice was performed as required, please provide documentation to our office within five (5) days of receiving this correspondence. Failure to do so will indicate your agreement that the Public Notice violation(s) listed above are valid.

Again, the Division would like to extend our appreciation for your efforts to maintain compliance with the Safe Drinking Water Act. As always, our staff is available to assist you with any questions you may have. Specific concerns regarding this letter should be directed to the JOHNSON CITY Field Office at (888) 891-8332.

Sincerely,

Jeff Bagwell
TN Division of Water Resources
