City of Baxter, Tennessee**

Dear Ms. Dodd,

We have approved the design of the above-referenced project consisting of the rehabilitation of an existing duplex grinder pump station and agree to own, operate, and maintain the proposed project once in operation. We have determined the system has adequate capacity and that the project will not create or exacerbate any overflow problems. The City of Baxter will own, operate, and maintain the proposed project once in operation.

Should you have any questions, please give me a call at (931) 858-4142.

Sincerely,
For the City of Baxter

John Ramsey
Water and Sewer Superintendent
