Re: Town of Alexandria STP - TN0021539

Ms. Sparks,

On behalf of the Town of Alexandria, this email is to update you on the status of the NPDES Permit Renewal application for Permit No. TN0021539 for the Town of Alexandria STP.

We are working with the Town of Alexandria and their contract operator to complete and submit the permit renewal application, and are experiencing difficulties in obtaining some of the analytical results required due to delays at the testing laboratory. The lab is experiencing inordinate delays due to sickness and demand, and is running quite a bit behind on schedule. As such, we are dependent upon the receipt of lab results to finalize the completed permit application.

We have the remainder of the application completed, so please let me know if it would be acceptable to submit an application with some data omitted, with a subsequent update after the final analytical results are received from the lab.

Thank you for your assistance with this matter. Please let me know if you have any questions or need additional information.

Jerry Warren
