Subject: Qualifying Local Program (QLP) Acceptance
City of Bristol Qualifying Local Program
TNS075183
Bristol, Sullivan County, Tennessee

Dear Mr. Sorah:

The Division of Water Resources would like to acknowledge the submittal on November 17, 2022, of the formal application for the City of Bristol's Qualifying Local Program (QLP) in accordance with subpart 4.3.1. of the general small MS4 permit (TNS000000). This completes the QLP application activities required by the 2022 Small MS4 Permit however, your program should refer to the current active general small MS4 permit (TNS000000) and Construction General Permit (CGP)(TNR100000) for ongoing programmatic and implementation requirements in order to continue to qualify as a QLP.

Since 2012, the City of Bristol has issued QLP-based permits as a participant of the QLP program.

This submittal completes the activities related to the subpart 4.3.1. We recommend a copy this authorization letter as long as there is a QLP program.

We appreciate the effort you have put into the QLP program. If you have any questions, please do not hesitate to contact Brown Patton at 423-254-7407 or at Brown.Patton@tn.gov.

Sincerely,

Brown Patton
Environmental Constultant
