RE: Receipt of Requested Materials for NPDES Permit Renewal
NPDES Permit TN0070076 (New)
Camden Gravel Company
Camden Pit No. 5
Benton County

Dear Mr. Baggett:

This letter is to acknowledge receipt of the NPDES permit application materials requested on June 28, 2016, by the Division of Water Resources, Mining Section. An updated application was received on August 2, 2016. The updated permit application has been reviewed by the Division and is administratively complete, pending a pre-mine site inspection.

An inspection of this facility has been scheduled for August 29, 2016, at 3:00 CDT. The Division does not require a representative of the company to attend, but you may do so if you like. The purpose of the site visit is to confirm the absence of Waters of the State within the proposed NPDES permit boundary and verify the feasibility of the site plan and treatment structures. If no changes to the site plan are required following the inspection, a draft permit will be issued.

If you have any questions concerning this correspondence or the upcoming inspection, please feel free to contact me at (865) 594-5543, or Daniel.Lawrence@TN.gov.

Sincerely,

A handwritten signature in cursive script, appearing to read "Daniel Lawrence".

Daniel Lawrence
Environmental Scientist
Division of Water Resources - Mining Section
