Subject: **NPDES Permit No. TN0081523**  
**BAM, Inc.**  
**Knoxville, Knox County, Tennessee**

Dear Mr. Byrd:

This letter is to inform you the Division of Water Resources is administratively terminating the above referenced permit effective as of the date of this letter. The subject NPDES permit for non-contact cooling tower discharges from the facility located at 10536 Lexington Drive expired on November 30, 2016. The facility connected to the sanitary sewer and will no longer continue a point source discharge that required an NPDES permit.

You elected not submit a NPDES permit application packet one hundred and eighty (180) days prior to this permit's expiration date, May 31, 2016 because the cooling tower discharge has been permanently routed to the municipal sewer system. If you should decide to discharge again under an individual permit, you must reapply for an appropriate permit at least 180 days prior to any proposed discharge.

If you have questions, please contact the Knoxville Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Mr. Jim McAdoo at (615) 532-0684 or by E-mail at [Jim.McAdoo@tn.gov](mailto:Jim.McAdoo@tn.gov).

Sincerely,

Vojin Janjić  
Manager, Water-Based Systems
