Re: Reelfoot Lake State Park (SBC No. 126-000-02-2021-01)

Mr. Vojin Janic;

This letter is prepared to confirm that Croy Engineering, LLC (Croy) prepared the SWPPP for the Statewide Soil Stabilization Project - Reelfoot Lake State Park (SBC No. 126-000-02-2021-01) with the understanding that Reelfoot Lake is designated as an Outstanding National Resource Water (ONRW). The purpose of the project and the design prepared by Croy is to reduce erosion that is occurring along the shoreline in certain areas of Reelfoot Lake State Park. Therefore, the project will not result in either measurable degradation or discernable negative effect to the lake. Please contact me if you have any questions regarding this correspondence.

Respectfully,  
Croy Engineering
