**Re: Notice of Violation**

Water Well Licensing Regulations and Well Construction Standards

Dear Mr. Laman:

The Division of Water Resources (DWR) appreciates the efforts of Laman Well Drilling to meet the requirements of the Tennessee Water Well Licensing Regulations and Well Construction Standards. However, during a recent compliance review of your drilling history, your drilling company has incurred a violation pursuant to **Rule 0400-45-09-.10 Well Construction Standards:**

1. Requirements

- (b) Every well driller, within sixty (60) days after completion of a water well, shall submit a report on the construction or reconstruction of the well to the Department. The well completion report shall be made on a form provided by the Department or a reasonable facsimile approved by the Department.

and

- (d) The Notice of Intent fee or copy of the receipt for a Notice of Intent fee shall accompany the submission of the driller's report. No well or borehole shall be drilled unless the driller has documentation that a Notice of Intent has been filed. All well reports shall be submitted with documentation of the Notice of Intent fee being paid. Documentation of the fee being paid shall consist of the receipt originating from a Notice of Intent or money collected and enclosed with the original driller's report by the driller for the Notice of Intent. A Notice of Intent and fee is not required for well closure, deepening or reworking any water well or closed loop geothermal borehole. The amount of the Notice of Intent fee shall be reviewed by the Department at least every five (5) years and shall currently be scheduled as follows:

1. Water wells for production of water per property site \$75
