Subject: Notice of Termination Force Main 1, 2 and 3 TNR154400

The Division of Water Resources (DWR) acknowledges receipt of a certified Notice of Termination (NOT) on March 22, 2024, for the project covered under tracking number TNR154400 under the General NPDES Permit for Discharges of Storm Water Associated with Construction Activities (TNR100000 – the “CGP”). This form was submitted according to Section 9 of the CGP, which requires the operator to submit written certification that a site, or portion of a site, has achieved final stabilization and all storm water discharges associated with the authorized construction activities have been eliminated.

As of the date of this communication and based in part on your submittal of the above-referenced NOT, CGP tracking number TNR154400 is now listed as “inactive” in DWR’s database and on DWR’s dataviewer. The permit record may be accessed on the dataviewer at [Permit Details \(tn.gov\)](https://www.tn.gov/PermitDetails)

We appreciate your attention to the general construction storm water permit and its requirements. We believe this does make a difference to the quality of state waters. If you have any questions, please feel free to contact me.
