

APPENDIX 3 – Pretreatment Exemption Renewal Application

This packet of information and forms is designed for those municipalities that are in the process of renewing their NPDES permit and were granted a pretreatment exemption in the past. Part III section B of your NPDES permit includes a requirement to update the Industrial Waste Survey (IWS). Attached are guidance material and forms for conducting an IWS. If there have been no changes in the area's industrial make-up since the previous exemption, complete and return only this form; you do not need to conduct an IWS. For those municipalities that have had changes since the exemption, the completed survey should be submitted no later than 120 days after the NPDES permit becomes effective. Submittals should be sent to:

Pretreatment Coordinator
Tennessee Department of Environment and Conservation
Division of Water Resources
William R. Snodgrass Tennessee Tower, 11th Floor
312 Rosa L. Parks Avenue
Nashville, TN 37243

Name of Facility: Scotts Creek Wastewater Treatment Plant

Date of Pretreatment Program Exemption: _____

Date of last Industrial Waste Survey (IWS): 3/2013

Has any industry moved into the area or changed processes since the last exemption was granted: no

If no, please explain: The City of Lakeland has no industrial users within its wastewater service area

I have personally examined and am familiar with the information submitted in this document. Based upon my inquiry of those individuals immediately responsible for obtaining the information reported herein, I believe that the submitted information is true, accurate and complete.

Date: 3/17/2023 Signature of Official: Euly Hamell
