Re: ARAP Application NR1804.258
Littlebury Planned Subdivision - Road Crossings IP application fee
Pantall Road and Critz Lane
Thompson's Station, Williamson County, Tennessee
TTL Project #000180801127.00

Dear Mr. Smith:

Based on an e-mail correspondence sent to you on December 7, 2018 from Jonathan Hopkins (TTL, Inc.), enclosed is a check payment of \$2,000 submitted on behalf of our client, GTLC, LLC.

As mentioned in the referenced e-mail, initially a \$1,000 check was submitted to TDEC DWR for payment of a \$500 general permit (GP) fee for utility/stream crossings and a \$500 GP for road/stream crossings. The GP for the utility/stream crossings was issued on December 7, 2018 (NR1804.259). However based on the cumulative lengths of the road crossings (>200-feet), an individual permit (IP) for the road/stream crossings is required. The additional application sections required as part of an IP were attached to the above-referenced e-mail (December 7, 2018).

We appreciate your consideration with this project. Please do not hesitate to contact me directly at (615) 727-1823 if you have any questions.

Respectfully,
TTL, Inc.

Jonathan P. Hopkins, M.S., TNQHP
Environmental Scientist
