Subject: Pretreatment Narrative Condition Industrial Waste Survey  
NPDES Permit No. TN0061841  
Marshall County, TN

Dear Mr. Cathey,

The Lewisburg Water and Sewer Department (Cornersville) NPDES permit was issued on September 19, 2022 and became effective on December 1, 2022. Part 3.2.a of the NPDES permit requires Cornersville to submit to the Division an Industrial Waste Survey (IWS) within 120 days of the effective date of the permit. As of the date of this letter, the Division has not received a submission. This is more than 120 days past the effective date of the permit. The IWS serves as a mechanism to evaluate if Cornersville has any industrial sources of wastewater that discharge to the Cornersville STP. This letter serves as a reminder that an IWS is required within 120 days of the effective date of the NPDES permit. Please submit an IWS to me at [Gordon.Holcomb@tn.gov](mailto:Gordon.Holcomb@tn.gov) by August 21, 2023.

Enclosed as email attachments are instructions on how to conduct and report an IWS. If you have any questions, please do not hesitate to contact me at 615-339-9956 or at the above email.

Sincerely,

Gordon Holcomb  
Pretreatment  
Compliance and Enforcement Unit
