RE: Pretreatment Compliance Inspection (PCI)
NPDES Tracking No: TN0064611
City of Camden WWTP
Benton County, Tennessee

Dear Mayor Pafford:

On May 25, 2023, as a representative of the Tennessee Department of Environment and Conservation, Division of Water Resources, I performed a routine compliance inspection at the above referenced facility to evaluate the City of Camden's compliance with pretreatment program requirements of NPDES Permit TN0064611. The Division thanks Mr. David Tuck for his time and assistance. Please see the sections below for details regarding the inspection.

I. Permit

NPDES Permit No: TN0064611 authorizes the City of Camden to discharge treated municipal wastewater from Outfall 001 into Cypress Creek receiving waters at mile 12.8. The permit was effective on November 1, 2018 and it expires on October 31, 2023.

II. Inspection

The City of Camden currently doesn't have a permitted industrial user. There was discussion of an unnamed industry that has proposed establishing operations; however, nothing had been confirmed at the time of my visit. I want to thank Mr. Tuck for his continued cooperation and hospitality during my visit.

III. Conclusion

Compliance with permit TN0064611 requirements helps ensure discharges that are protective of downstream fish and aquatic life and water quality. Thank you for your efforts to ensure permit compliance and to protect state water quality. If I may be of assistance in matters concerning this report, please contact me via telephone at 731-571-0440 or via email at John.Lay@tn.gov

Sincerely,

John Lay

Environmental Protection Specialist
