Re: Fenway Lift Station Upgrades

Dear Ms. Dodd:

Chris Fortune Construction has engaged LDA Engineering on behalf of the City of Pigeon Forge for the design of upgrades to our Fenway Lift Station. The station is being upgraded to address growth within our wastewater collection system. We have reviewed and approved the plans and design calculations stamped by Matthew Movahed, PE and submitted to your division for state approval and agree to own, operate, and maintain the proposed project once in operation.

Please contact me if you have any questions or need any additional information.

Sincerely,

**CITY OF PIGEON FORGE**

Mark Miller  
Public Works Director
