Re: Compliance Status Notification - Public Notice Rule
PWSID: TN0000088

Mr. Gibson:

The Division of Water Resources appreciates the dedicated efforts of the BYRDSTOWN WATER DEPT to meet the requirements of the Tennessee Safe Drinking Water Act (SDWA). After reviewing the records maintained by the Division, this water system was identified as being required to perform Public Notice(s) during the previous quarter of this year. After reviewing Division records, the Public Notice(s) have not been located.

Specifically, on 01/31/2022 this system was notified of a Stage 2 DBP monitoring violation for the October-December quarter of 2021. Based on the violation's Tier Level (Tier 3), Public Notice was required to be performed before 01/31/2023.

If you believe the above Public Notice was performed as required, please provide documentation to our office within five (5) days of receiving this correspondence. Failure to do so will indicate your agreement that the Public Notice violation(s) listed above are valid.

If you agree the Public Notice violation is valid, you may issue the required Public Notice within 30 days of this letter's date. To address this PN violation, please include verbiage like: "As a result of the violation included in this notification, we also incurred a Public Notice violation for failure to notify our customers within the timeframe required."

Again, the Division would like to extend our appreciation for your efforts to maintain compliance with the Safe Drinking Water Act. As always, our staff is available to assist you with any questions you may have. Specific concerns regarding this letter should be directed to the COOKEVILLE Field Office at .

Sincerely,

Jeff Bagwell
TN Division of Water Resources
