**Re: Tylertown Road & Oakland Road Utility Relocation
NPDES Permit number: TN 0020656
Montgomery County**

Dear Ms. Dodd:

Clarksville Gas and Water (CGW) has reviewed and approved the design of the above-referenced project consisting of approximately 96 LF of 2-inch PVC force main, 450 LF of 6-inch PVC force main, 230 LF of 8-inch PVC force main, 1547 LF of 8-inch PVC gravity sewer and 180 LF of 8-inch DIP gravity sewer.

We agree to own, operate, and maintain the proposed project once in operation. We have conducted an analysis and determined the system has adequate capacity and that the project will not create or exacerbate any overflow problems.

If you require any further information or have any questions or comments, please do not hesitate to contact me at troy.holland@cityofclarksville.com or (931) 645-7418.

Very respectfully,

A handwritten signature in blue ink, appearing to read "Troy Holland", with a long horizontal flourish extending to the right.

Troy Holland
Project Manager
