**RE: Wastewater Compliance Evaluation Inspection
Camden Spray Irrigation System
SOP-15022, Benton County,**

Dear Mayor Pafford,

On May 2, 2019, a Compliance Evaluation Inspection of the Camden's Spray Irrigation System was conducted. The City of Camden's Spray Irrigation System is permitted under State Operating Permit # SOP-15022. Present during the inspection were Mr. John Beasley (Superintendent of Water), Mr. Anthony French (WWTP Operator), Mr. David Tuck (WWTP Operator), and Mr. Steve Pudlo (Consulting Engineer).

During the inspection it was learned that the spray irrigation system was not fully completed due to the contractor not following the Specifications and Plans approved by the Division. I understand this will push completion to the middle or late summer of 2019.

Several fully functional spray field areas were inspected and the remote control operations observed. This new remote control technology should allow for greater operational control of the system and greater flexibility in operating the spray system.

Mayor Roger Pafford
