Project Description				
Depending on project type, including but not limited to:				
Linear feet, diameter, and type, (force main, gravity sewer,				
signature; treatment/pumping capacity. For line rehabilitation: linear feet and size by activity, e.g., replacement, pipe-				
bursting, cured-in-place, slip-line, TV inspection, smoke tes	sting; number of manhole or service lateral rehabs.

NPDES or SOP Number (If not a treatment project, submit which serves the proposed improvements):				
System Information				
System Name:				
Is your system on a moratorium?				
Is it self-imposed?				
If yes, provide information that the proposed project would be in compliance with existing moratorium restrictions:				
Utility Letter				
A letter is attached from the utility demonstrating:				
1) It has conducted the capacity analysis for this project and it will not create any capacity or overflow problems				

- s conducted the capacity analysis for this project and it will not create any capacity or overflow problems
- 2) They approved the design, and agree to own, operate and maintain the proposed projects once in operation
