Re: Construction Permit Application
S & S Firewood LLC
245 Red Hawk Lane, Winchester, TN, 37398
Emission Source Reference No. 26-0217-01/Permit No. 980265

Dear Mr. Strickland:

Your construction permit application dated April 7, 2022 for Wood-fired Kiln #1 was received on April 8, 2022. Please be advised that construction or modification of the source cannot begin until you are in receipt of the issued construction/modification permit. A determination has been made that the application is incomplete for the following reason(s):

Additional information is needed as follows:

1. Complete Section 7 of the APC 101 (stack or emission point data).
2. Submit calculations for the steam-fired kiln emissions.
3. Submit applications for any additional wood-fired boilers at the facility.

Please submit the additional information to the Technical Secretary at the letterhead address or email the information to Air.Pollution.Control@TN.gov in Adobe pdf format within 60 days of receipt of this letter so that the Division can review the revised application for completeness. If additional deficiencies are identified, you will be able to correct them within the remainder of the 180-day period that begins on the date you received this letter, as provided in subparagraph 1200-03-26-.02(4)(d) of the Tennessee Air Pollution Control Regulations.

It is the express intent of the Tennessee Air Pollution Control Board that the 180-day permit application correction period is not to be construed by an applicant as permission to construct or modify a source without the permit required by Division Rules. If you fail to submit a complete application within this 180-day time period, all construction permits shall be denied, and any fees forfeited.

Mr. Strickland
