Re: Facility ID # 06-0284
Permit Number: 965288P

Dear Mr. Thiesse or responsible official:

The Division of Air Pollution Control is completing file reviews in an effort to ensure all required permits have been obtained and are not beyond their expiration date. During our review, it has come to our attention that construction permit number 965288P is due to expire on November 1, 2013.

If this source has begun operations, please ensure all conditions of your construction permit have been met. This includes the submittal of an operating permit application, and startup certification if required. However, if startup has not occurred, it may be necessary to apply for a request to extend the expiration date.

Application form (APC20/APC100) is located at (<http://www.tn.gov/environment/permits/aioper.shtml>). You now have the option of submitting your application via email to Air.Pollution.Control@tn.gov. The submittals must be signed and in PDF format.

However, if you prefer to mail your applications, please note that our Nashville office recently moved to

**Tennessee Department of Environment and Conservation
Division of Air Pollution Control
15th Floor, William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue
Nashville, Tennessee 37243**

Should you have any questions, feel free to contact me at (423) 634-6075 or Don.Davis@tn.gov. If the application process has already begun, please disregard this letter.

Sincerely,

A handwritten signature in cursive script that reads "Don Davis".

Don Davis
Environmental Field Office Manager
